

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic visual effect.

Erasmus Project Slovakia 2022

Our special trip.
On the 25th April, Riley, Jason and Thomas
went with Issy, Natalija and Clair to visit a
school in Slovakia.

Slovakia is about 1250 miles from Rowan Gate.

It took us about 7 hours to get to Slovakia on a bus, an aeroplane and a taxi limousine. When we arrived, we checked out our rooms and explored a local park.

After a good night's sleep, we visited our host school. It was really friendly. They had a special assembly where we told everyone about Rowan Gate and were given some special traditional bread and salt as a greeting.

We spent the rest of the morning at school, then went for a tour of the town Nitra in the afternoon. They have lots of statues and a big castle. We visited McDonalds for dinner before going to bed. It was a tiring day!

On Tuesday we went on a trip to Bratislava the capital city of Slovakia. We sailed down the Danube river and saw what looked like green sharks in the water and beautiful castles on the land.

The boat dropped us off at an old castle for us to explore. We even looked for a dragon in the cave. It was visiting it's cousin Nessie in Scotland.

The river was so narrow we could see Austria on the other side and even visited on our way back on the boat.

We went back to Bratislava later in the afternoon and had a walking tour to see the castle we had seen from the boat and lots of tourist attractions. We even tried to look like the statues ourselves.

On Wednesday we had a whole day at school doing lots of lessons. It was such a busy day we didn't get many photographs.

Thursday we went to feed some Bison, then it was all about castles. We visited a beautiful castle and were able to explore and climb on some old ruins.

Thursday night was party night! We had a good dance and lots of party food. The most special thing was receiving our participation certificates.

On Friday we had to come home, but we managed a sneaky trip to the zoo on the way to the airport. There were so many amazing animals it was wonderful.

It was finally time to head to the airport.
Lego Fireman was there to wave us goodbye.
We had a wonderful time but were very glad
to be heading home for hugs with our
families. What a week! Slovakia we miss you.
