

**RE:** This term we will be learning about Humanism. What is the philosophy, who can follow this way of life, how can we all adapt the ethos into our own lives? We will look at each area, reflect on improvements we can make and put these into practice.

**Maths:** This term, we will be learning about addition and subtraction, data handling, time and measures. There will be lots of practical Maths to motivate and engage the children and to help them to learn and consolidate the key concepts.

**English:** In English this term we will be looking at film narrative, instructions, biographies/autobiographies, persuasive writing and drama. The children will also be learning phonics/spelling and handwriting/fine motor skills on a regular basis.

**Science:** In Science this term we are learning about Living Things, including Humans. The children will be focusing on the parts of the body, externally and internally and the digestive/circulatory system. We will also learn about how we can keep healthy and the importance of food for energy and growth.

Summer 2021

Peaches

**PE:** We will continue to focus on yoga practice for well-being and movement. Linking into our 'Olympic' topic, as a class we shall be taking part in various activities (weather permitting!)

**Computing:** Our topics in computing are communication and collaboration, e safety and programming. The children will learn about how to explore the internet safely, use different methods of communicating such as email and communicate in print and how to save and print their work. In the second term, the children will use programmes such as scratch and 2code to create simple games.

**PSHE:** In PSHE we will be thinking about Special Days. What do they mean to us? What defines a special day? Which special people do you share these days with? We will be using text books, our memories, past experiences, future hopes and dreams to consider all elements of Special Days.

As a class, we will be entering into a Royal Mail competition to design a stamp for Heroes/special people. More information on this will follow.

On the last day of term, we will attempt to create our own class dream 'special day' based on everything we have learnt and discussed.

**Topic:** The topics for this term are 'Bridges' and 'The Olympics.' In our bridges topic we will be exploring different types of bridges around the world, how they were made and out of what material. We will also be making and designing bridges linked to Art/DT. The children will also explore the history of bridges and other inventions of the Victorian Era. In the Olympics topic we will be learning about the history of the games, the culture and traditions of Japan and linking lots of art activities to this topic.
