

Why is school different?

You have been superstars when you have stayed at home.

Some of you have been learning using an ipad, phone or laptop.

Well done!

Some of you have enjoyed playing with your family, having fun and this is fantastic too.

Now it is time to be back at school for some of you. You might feel worried, scared, happy, excited, or something else? That is ok.

All feelings are ok, if it is a really big feeling the grown ups can help you feel safe. Teachers are good at that!

When you are back in school some things might be different.

This might make you have those funny feelings!

That's ok! remember you can talk to your teachers about the changes.

Everyone is working very hard to make school a fun place to be.

When you are back at school you might be able to go outside for more playtimes, fresh air is good. You can do some of your learning with your friends.

Some questions you might ask are

**“Where are my friends?”**

Some of your friends are not in school because they are learning at home or they might be feeling poorly. This is not a problem. It's just the way things are at the moment.

Your friends at home might be able to use an iPad, phone or laptop to learn.

You might see them on TEAMS.

**“Why are there different adults in my class?”**

This might be because some adults are working at home and some might be poorly.

This is OK you will see them soon.

Remember the adults will be wearing masks and face shields just like before.  
This is to keep everyone safe from the nasty virus and to stop germs spreading.

If we all do our best school will be a safe place and everyone will be happy.

Remember if you are worried or have questions the grownups will try to help you understand.

*School is a fun place, you are superstars!*
